

Editors note: Teletrac Inc. and Navman Wireless are now merged as a global telematics powerhouse. This content was created prior to the unification of both brands.

Keep your entire fleet running smoothly

Navman Wireless fleet-management solutions help you increase uptime through smarter maintenance

The health of your equipment is a good barometer for the health of your entire business. When you're fully connected to your operation, you can establish policies that help you save on maintenance costs while increasing uptime.

Navman Wireless fleet-management tools helped Tech A.I.R. slash maintenance costs by more than 60%

Navman Wireless fleet-management solutions connect you with the Fleet and Mobile Asset Intelligence necessary to make meaningful changes. With in-depth real-time data combined with powerful analytical tools, you'll be able to:

- Reduce unnecessary wear and tear on assets by streamlining routes and decreasing unauthorized use
- Identify and address mechanical issues before they cause unexpected downtime
- Keep accurate records of maintenance performed and ensure preventive maintenance is done at the right time

Actual facts from real Navman Wireless customers

Griffin Waste Services

Fuel & Maintenance Savings **\$742.50 per vehicle per month**
 Robust reporting has helped the company put a stop to excessive speeding and idling, as well as route trucks more efficiently. Overall, fuel and maintenance costs have gone down by more than 10%.

Tech A.I.R.

Fuel Savings **\$269 per vehicle per month**
 Now Tech A.I.R. uses maintenance reports generated by their Navman Wireless fleet-management solution to know which trucks are due for maintenance and routine inspection. With this added insight, repair costs alone have dropped from \$62,000 annually to \$38,000 while drivers are more productive than ever.
