

Editors note: Teletrac Inc. and Navman Wireless are now merged as a global telematics powerhouse. This content was created prior to the unification of both brands.

Cut payroll costs without cutting service

Learn how Navman Wireless fleet management solutions make a real impact on businesses like yours

Margins are tighter than ever, but customers always expect top-notch service. You need to be able to slim down costs from all areas of your operation while continuing to satisfy your customers. Payroll is one of the first places most business look to for cost-cutting, but it can be tough to know where to start.

Navman Wireless has really helped Key Kleaning reduce labor costs—because now they're visible.

With a fleet-management solution from Navman Wireless, you'll finally have the Fleet and Mobile Asset Intelligence you need to find waste and make surgical cuts in employee time inefficiencies. With in-depth real-time data combined with powerful analytical tools, you'll be able to:

- Verify timesheets with accurate, tamper-proof information rather than rely only on self-reported data
- Reduce unnecessary wear and tear on assets by streamlining routes and decreasing unauthorized use
- Diagnose the causes of unplanned overtime and correct them before they take a bite out of your bottom line

Actual facts from real Navman Wireless customers

Alliance Commercial Pest Control Inc.

Overtime Savings **\$389 per vehicle per month**

By comparing timesheets to Activity Reports generated using our proprietary OnlineAVL2 software, Alliance has reduced overtime by at least 40 hours a week. Plus, Alliance employs satellite mapping to more efficiently route and track techs.

Jaris Transportation

Payroll Savings **\$440 per vehicle per month**

By adding a Navman Wireless fleet management solution, Jaris Transportation now relies on GPS tracking to determine hours worked, saving the company almost an hour per vehicle per day.
