FIRST HARMFUL EVENT DEFINITIONS AS PROVIDED BY THE U.S. DEPARTMENT OF TRANSPORTATION:	souces: wikipedia.org	
Pedestrian : Persons traveling on their feet. This also includes people on personal conveyances not propelled by pedaling, such as skateboards, wheelchairs, skates, or motorized scooters.	www-fars.nhtsa.dot.gov valuepenguin.com transportation.gov	
<b>Motor Vehicle In Transport :</b> When one motor vehicle collides with another in motion on a roadway. This includes vehicles in traffic on a highway, driverless vehicles in motion, and stationary vehicles abandoned on a roadway. In lanes used for travel during rush hours and parking during off-peak times, a parked vehicle is "in transport" during times when parking is forbidden.	highways.org	
<b>Parked Motor Vehicle :</b> Refers to the collision of a motor vehicle in transport with one not in transport. Parked vehicles include those parked outside of the roadway and those parked in the roadway in lanes not designated for travel at the time of the accident.	TELETRAC NAVMA	
<b>Overturn :</b> When a vehicle rotates 90 degrees or more side-to-side or end-to-end. This also may be referred to as a rollover.		
Fixed Object : Refers to permanent or semi-permanent structures such as guardrail faces, embankments, trees, boulders, impact attenuators, bridges, concrete traffic barriers, culverts, etc.
